

Austin Kelly - UX and Communications Copywriter for Walmart

Austin Lee Kelly | Van Buren, AR (Can relocate)

📞 901-247-8155 | ✉️ theaustinkelly@gmail.com

🌐 austinleekelly.com | linkedin.com/in/theakx

UX Writer | Content Strategist | SaaS + Logistics Copywriter

UX writer with 7+ years of experience writing user-centered content for mobile-first logistics and SaaS platforms. Specializes in guiding users through key workflows with clarity, accuracy, and empathy.

Skilled in simplifying technical concepts into clear instructions and creating scalable help center content that supports both users and internal agents.

Proven record of reducing contact rates, increasing onboarding adoption, and improving user satisfaction through optimized copy.

Collaborates cross-functionally with design, product, operations, and support teams to align messaging with behavior, accessibility standards, and business goals.

Experience

UX & Onboarding Copywriter (Freelance)

Remote | 2018 - Present

- Crafted UX copy across in-app experiences: tooltips, modals, transactional messages, push notifications, and microcopy tailored to logistics driver personas.
- Wrote and maintained self-service guides, how-to articles, and agent scripting content for high-scale support operations using Zendesk and Confluence.
- Simplified complex workflows (e.g., multi-step onboarding, order acceptance, account verification) into clear, intuitive messaging.
- A/B tested onboarding flows and revised underperforming content using behavioral data, Hotjar insights, and support feedback.
- Achieved a 50% reduction in user churn and 40% increase in onboarding adoption through targeted messaging and user segmentation.
- Reduced monthly support contact rate by 30% with improved help content and proactive messaging.
- Collaborated closely with product managers, UX designers, and support leads to align content tone and user guidance with platform voice.
- Applied accessibility and localization best practices to ensure inclusive, scalable communication.

IT Support Specialist

City of Fort Smith - Fort Smith, AR

January 2011 - April 2018

- Supported over 1,000 employees and 1,200+ devices with technical troubleshooting, prioritizing documentation and self-service support.
 - Authored detailed user guides and internal knowledge articles that reduced ticket volume and improved agent onboarding.
 - Automated deployment and recovery workflows, reducing downtime by 85% and standardizing IT processes.
 - Led cross-functional initiatives to document recurring issues and align technical communication across teams.
-
