Professional Summary

Technical Writer – System Integration Specialist with 10+ years of experience translating complex IT architectures into clear, user-centered documentation. Proven success supporting enterprise system integration projects involving multi-platform, multi-vendor ecosystems. Adept at gathering requirements, managing vendor communication, and creating integration diagrams, SOPs, onboarding guides, and visual technical references. Experienced with identity and access management, API-based systems, risk mitigation, and Agile collaboration in regulated environments.

Professional Experience

Freelance Technical Writer & Systems Documentation Consultant

Remote | Jan 2018 – Present

- Designed and documented multi-platform integration workflows for B2B SaaS applications.
- Authored detailed implementation guides, platform interoperability documentation, and integration SOPs using Markdown and Git.
- Collaborated with SMEs to define project requirements, system architecture, and integration controls.
- Created user-oriented diagrams, charts, and architecture visuals to support technical documentation and process understanding.

Technical User Support Analyst

Medtronic – Memphis, TN | Apr 2018 – Feb 2019

- Delivered technical support and documentation for identity systems, MFA workflows, and secure remote configurations.
- Integrated IT support systems across vendors; authored SharePoint-based documentation to standardize support protocols.
- Created a PowerShell automation tool to link user provisioning tasks with endpoint configuration, cutting setup time by 30%.
- Coordinated with internal and external tech teams to ensure compliance with integration requirements.

IT Support Specialist

City of Fort Smith – Fort Smith, AR | Jan 2011 – Apr 2018

- Managed documentation for 1,200+ endpoint devices across departments, with a focus on platform integration and system security.
- Led project coordination with software vendors and service providers to deploy multi-vendor solutions.
- Authored control documentation for Active Directory, GPO configurations, and imaging systems to ensure uniform deployment.
- Designed IT onboarding guides and integration playbooks, reducing new employee onboarding time by 25%.
- Participated in IT planning and post-launch analysis, contributing to project metrics reporting and platform evaluation.

Owner / Web & Tech Consultant

Fancy Fox Creative – Fort Smith, AR | Sep 2010 – Dec 2017

- Integrated CRM, CMS, and secure email systems for small business clients; documented workflows for client self-management.
 - Delivered project requirements documentation, setup guides, and integration instructions tailored to multi-platform tools.
 - Liaised with hosting and software vendors to ensure proper configuration and cross-platform compatibility.
 - Produced onboarding materials and IT documentation that reduced client reliance on support by over 50%.
-
