Professional Summary

Technical Writer with over 10 years of experience producing user documentation, technical process documents, and developer-facing content for IT and software development teams.

Adept at collaborating with engineers and SMEs to research, write, and maintain clear, user-centered content across the full documentation lifecycle.

Skilled in aligning content with internal style guides and Agile methodologies.

Proven ability to manage multiple projects, plan content review cycles, and translate complex technical systems into clear documentation for technical and non-technical audiences.

Professional Experience

Freelance Technical Writer & Content Strategist

Remote | Jan 2018 - Present

- Created end-user guides, onboarding materials, knowledge base articles, and standard operating procedures (SOPs) across multiple SaaS and Agile environments.
- Authored and versioned technical documentation using Git and Markdown in docs-as-code workflows; integrated with GitHub and CI/CD pipelines.
- Reduced user onboarding time by 30% by redesigning onboarding documentation for client-facing SaaS platforms.
- Led documentation reviews with SMEs, developers, and stakeholders, implementing feedback into iterative drafts.
- Developed flowcharts, user journeys, and architecture diagrams using Draw.io, Mermaid.js, and Miro.
- Maintained content in Confluence and SharePoint; ensured documentation accuracy through version control and structured content models.

Technical User Support Analyst

Medtronic - Memphis, TN | Apr 2018 - Feb 2019

- Wrote internal documentation and SOPs for secure provisioning tools and system configuration processes across IT teams.
- Managed SharePoint knowledge repositories, ensuring technical documentation remained accurate and aligned with evolving IT infrastructure.
- Created troubleshooting workflows and IAM documentation, contributing to a 40% reduction in provisioning-related support requests.
- Automated documentation-linked provisioning steps using PowerShell, improving consistency and reducing time to deploy devices.

IT Support Specialist

City of Fort Smith - Fort Smith, AR | Jan 2011 - Apr 2018

- Created internal IT documentation, GPO deployment instructions, user guides, and onboarding documents for over 1,200 endpoints.
- Reduced average time to onboard new employees by 25% through streamlined onboarding packets and documentation sets.
- Led IT knowledge transfer initiatives and maintained technical SOPs for multi-department environments, coordinating across teams and vendors.

Owner / Technical Consultant

Fancy Fox Creative - Fort Smith, AR | Sep 2010 - Dec 2017

- Authored client-facing knowledge base content and SOPs for small businesses using CRMs, CMSs, and cross-platform SaaS tools.
 - Created documentation on finance workflows, email systems, and software integrations, reducing support requests by over 50%.
 - Translated user needs into scalable documentation and built searchable repositories to support client self-service.
-

Featured Projects

TSDS ODS OpenAPI SDK Docs *(In Progress)*

- Reverse-engineering Swagger documentation for education system SDK; creating onboarding, authentication, and endpoint reference docs using Markdown.

Whisper Desktop Documentation

- Wrote install/setup guide and usage manual for an offline transcription tool with a privacy-first architecture.
