Professional Summary

Results-driven Technical Writer with 10+ years of experience creating product documentation, onboarding guides, and technical resources for SaaS and IT enterprise environments. Proven ability to collaborate cross-functionally with engineering, UX, and product teams to deliver accurate, user-centered content. Proficient in tools like PowerShell, Git, Markdown, and ticketing systems. Passionate about content, open source, internet security, and improving product experiences through clear and actionable documentation.

Professional Experience

Freelance Technical Writer & Content Strategist

Remote | Jan 2018 – Present

- Authored onboarding guides, admin manuals, and knowledge base content for B2B SaaS platforms.
- Collaborated with product managers, developers, and UX teams to test and document new features in development and production environments.
- Led content development initiatives to improve self-service support, reducing support tickets by up to 30%.

Technical User Support Analyst

Medtronic – Memphis, TN | Apr 2018 – Feb 2019

- Supported sales and field teams on secure device deployment, IAM workflows, and MFA setups.
- Authored internal documentation and process guides for troubleshooting secure configurations.
- Automated provisioning tasks via PowerShell, decreasing new user setup time by 25%.
- Provided cross-team knowledge transfer through SOPs, improving first-call resolution rate.

IT Support Specialist

City of Fort Smith – Fort Smith, AR | Jan 2011 – Apr 2018

- Created internal documentation and IT onboarding materials for 1,200+ devices and 1,000+ users across multiple departments.
- Developed step-by-step configuration and usage documentation for Active Directory, GPOs, and security software.
- Reduced incident resolution time by 40% through standardized documentation and training materials.
- Participated in Agile-adjacent sprint planning to align IT infrastructure changes with organizational priorities.

Owner / Web & Tech Consultant

Fancy Fox Creative – Fort Smith, AR | Sep 2010 – Dec 2017

- Delivered implementation and onboarding documentation for CMS (WordPress, Joomla) and CRM tools.
 - Created secure system handoff guides, including server migration, DNS configuration, and cloud-based deployments.
 - Supported small businesses by documenting internal workflows, improving self-sufficiency and reducing support needs.
-

Behind the Curtain: How I Built My Portfolio - Quartz: A Docusaurus Clone for Obsidian

- How I built my portfolio using Obsidian and Quartz4, a Hugo-based static site generator similar to Docusaurus.
- This setup similarly mirrors how developer docs are written, organized, and deployed - using Markdown, YAML frontmatter, version control, and static hosting via GitHub Pages.
- It demonstrates my hands-on experience with documentation systems, technical tooling, and content structure.
