Professional Summary

Technical Writer – SaaS Platforms | API Documentation | CRM Systems

Technical writer with over 10 years of experience documenting web-based platforms, SaaS tools, and CRM-related integrations.

Adept at producing high-impact knowledge base articles, developer documentation, and user guides that improve self-service adoption, reduce support tickets, and align with product releases.

Skilled in using Git, CLI tools, and markdown to create clean, maintainable documentation across engineering and product teams.

Proven success collaborating cross-functionally to clarify complex features and workflows.

Direct CRM documentation experience and startup agility.

Professional Experience

Freelance Technical Writer & Systems Documentation Consultant

Remote | Jan 2018 – Present

- Developed and maintained self-service documentation and developer content for SaaS and CRM-like platforms, increasing customer support deflection by 50%.
- Authored knowledge base articles, FAQs, and release communication for multiple product updates, boosting onboarding effectiveness and feature adoption rates.
- Used Git workflows and markdown to manage version-controlled documentation; contributed to API and CLI tool documentation by referencing source code and reviewing commits.
- Created structured user guides, UI text, and error message documentation aligned with product feature sets and design standards.
- Integrated feedback from CX and engineering teams to refine UX language, reduce user confusion, and ensure content localization readiness.
- Worked with AI tools (e.g., ChatGPT, Claude, Gemini) to streamline draft creation, terminology consistency, and translation readiness for multi-language platforms.

Technical User Support Analyst

Medtronic - Memphis, TN | Apr 2018 – Feb 2019

- Documented internal tools and workflows for 1,000+ field users across CRM, remote provisioning, and SSO platforms.
- Created support center content and onboarding materials, increasing internal adoption of self-help documentation by 40%.
- Produced scripts and user instructions that reduced provisioning and configuration time by 30% across IT and field teams.
- Partnered with security and compliance stakeholders to ensure documentation aligned with HIPAA and internal standards.

IT Support Specialist

City of Fort Smith - Fort Smith, AR | Jan 2011 – Apr 2018

- Led internal documentation for software rollouts across 20 departments, improving end-user engagement with new platforms including email, collaboration, and CRM tools.
- Authored SOPs, troubleshooting guides, and training materials for 1,200+ users, reducing new hire support tickets by 25%.
- Created and maintained SharePoint-based documentation repositories and IT onboarding portals.

- Supported CRM migrations with documentation for access control, record integrity checks, and data retention workflows.

Owner / Web & Tech Consultant

Fancy Fox Creative - Fort Smith, AR | Sep 2010 – Dec 2017

- Produced technical documentation and training materials for SMB clients implementing CRM platforms like Zoho and HubSpot.
 - Designed onboarding guides and automation workflows, reducing support needs post-implementation by 50%.
 - Delivered UX-focused help docs and feature walk-throughs for client web tools and secure communication platforms.
-
