🌐 [My Portfolio](#) | [LinkedIn](#)

Summary

IT & Cybersecurity-focused Technical Writer with 10+ years of experience translating complex IT concepts into clear, compliant documentation. Skilled in crafting user-friendly policies, procedures, and internal guides.

Proven collaborator with SMEs and technical teams. Experience in healthcare and public sector environments. Committed to reducing risk through clear communication and effective training materials.

Experience

Freelance Technical Writer & Content Strategist | AustinLeeKelly.com | Remote

Jan 2018 – Present

- Authored and structured technical documentation for SaaS products, internal IT tools, and security-focused platforms.
- Created SOPs, implementation guides, and knowledge base content that improved onboarding and reduced support tickets.
- Collaborated with teams and developers to ensure content accuracy, compliance, and accessibility.
- Researched and documented workflows for automation, secure infrastructure setup, and incident response procedures.

Technical User Support Analyst | Medtronic | Memphis, TN

Apr 2018 – Feb 2019

- Provided secure remote support for healthcare field teams, ensuring compliance with encryption standards, user authentication, and secure device management.
- Automated system setup with PowerShell, reducing provisioning time by 30% and improving security consistency.
- Contributed to the development and documentation of IT processes in ServiceNow and MDT, improving endpoint security procedures.
- Collaborated with IT and security teams to update technical support documentation and knowledge base content.

IT Support Specialist | City of Fort Smith | Fort Smith, AR

Jan 2011 – Apr 2018

- Created and maintained IT documentation, including system access procedures, disaster recovery guides, and endpoint security policies.
 - Supported 1,200+ devices and 1,000+ users with a focus on **secure system configurations** and compliance with government IT and cybersecurity protocols.
 - Implemented vendor-supported cybersecurity tools and documented processes for onboarding, backup, and incident response.
 - Collaborated cross-functionally to educate staff on phishing threats and best practices through internal campaigns.
-
